# PharmChem Laboratories,

## The Unconglomerate.

We are not a division of TransAmazing Corporation or a subsidiary of General Everything Incorporated!

PharmChem Laboratories is a small company with one service — drug testing. That is all we do and we think we do it well.

Our clients include methadone clinics, drug rehabilitation programs and health professionals.

A small company with a single purpose. This means you phone our president when you have a problem. It means your work doesn't pile up in mailrooms and in-boxes. It means accuracy because everyone at PharmChem takes old-fashioned pride in their work.

It means you can do your job better because you don't have to worry about us doing ours.

Some of the people at PharmChem that would like to help you do your job better: George Kohler, Barbara Vigil, John Tucker, John McLenegan and Jim Ostrenga, President.

Here's what you do:

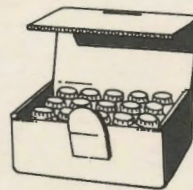

(415) 322-9941

(Call Collect)

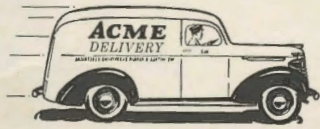

Here's what we do:

Supply you with specimen vials

and mailers;

self-addressed and ready for shipment. Dispatch messenger

service to pick up samples. Furnish air-freight

carrier to speed delivery.

Meet samples at the

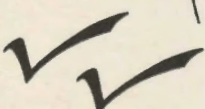

airport and rush them to the lab for testing.

Test samples

the same day we get them. Double

check  positive results.

Phone results or send by special

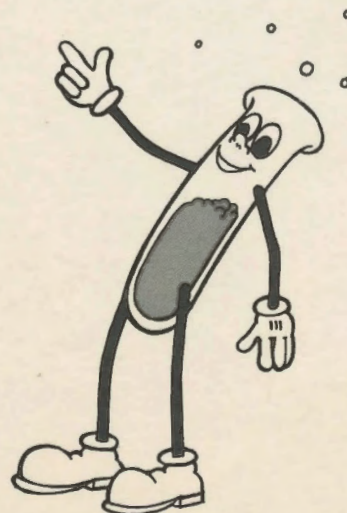

delivery.

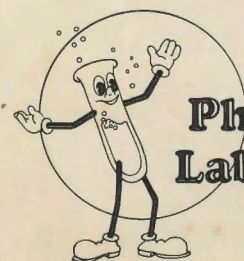

And

when we quote a sample charge

there are no hidden costs.
